JAM TIME: ONE MINUTE, ONE VOICE

To foster confidence, fluency, and spontaneous thinking, our school organized a lively 'Just a Minute (JAM)' activity on 5th July for students across classes IX - XII. This engaging session gave students a platform to express their thoughts clearly and concisely—within a span of just one minute!

Each participant was given a surprise topic and just a few seconds to gather their thoughts before speaking. The topics were as diverse as the ideas shared. Students impressed the audience and judges with their presence of mind, vocabulary, clarity, and creativity.

STUDENT WELL-BEING PROGRAM

In an effort to promote mental well-being and emotional resilience among students, our school recently collaborated with ICMR-NIMHANS (National Institute of Mental Health and Neurosciences) and conducted a Mental Health Awareness Program on 10th and 11th of July 2025.

The session aimed to create a safe and supportive environment for students to understand the importance of mental health. Experts from NIMHANS engaged students in interactive discussions, real-life scenarios, and practical strategies to manage stress, handle peer pressure, and build emotional strength. A group of student leaders were chosen and equipped with the skills to assist fellow students facing mental health challenges. To promote emotional well-being, NIMHANS shared a self-help platform designed specifically for students.
